

KU Chemistry Club Meeting Minutes for 2/21/2012

T-shirts arrived and were passed out at the opening of the meeting. If you still have not received your Chem Club t-shirt, please contact Cher-Yee Lye or e-mail chemclub@ku.edu

The focus of this meeting was to promote upcoming events. The next upcoming event is the Engineering Expo. The Chem Club will be participating in this year's expo by making Nitrogen Ice Cream! Our room at the expo is 2148 Learned. At the Chem Club meeting, students were able to sign-up to volunteer for the expo, as well as practice making the ice cream before the expo. If you did not get a chance to volunteer for the expo, e-mail chemclub@ku.edu to sign up. Free ice cream for all volunteers!

Looking ahead, we have another volunteer opportunity that is just around the corner on April 14. The Chem Club will be participating in Earth Day in Lawrence's South Park. We will discuss this event further at the Chem Club meeting in March.
